About

7 years' experience in successfully managing large public contracts valued at more than £30 million across multiple locations as a Clinical Director.

I am motivated and results-focused with a proven track record of leading large-scale programmes having delivered in excess of 10,000 vaccination sessions over the past 12 months.

A strategic thinker able to excel in challenging environments as well as being a positive communicator who is organised with strong analytical skills and a practical approach to solving problems.

Competent in compliance, ensuring responsibility for identifying and mitigating regulatory risk.

Consistently ensures that projects are delivered in line with budget, scope, schedule, risks, outcomes, prioritisation, value and benefits.
